

To: Mayor & City Council

From: Scott Monaghan, Public Works Director

Date: July 15, 2019

Agenda Item: The Public Works Department is requesting the purchase of 3 backup generators including materials, installation, start up and testing to support operation of new sanitary sewer lift stations.

Action Requested: Discuss, consider and take any necessary action regarding purchase of generators.

Prior Action: City staff are limited in the ability to power lift stations during power outages by only having one mobile generator with the capacity to operate the pumping equipment for sanitary sewer lift stations.

Overview and Background: The city of Fate currently has 8 Sanitary Sewer lift stations with only 1 supported by a backup generator. We are requesting to add 3 additional generators to the lift stations that are on the master plan to be in service for the next 10 years. Of the remaining generators 3 are scheduled to be taken out of service as development continues leaving 1 to be supported by our mobile generator.

Financial Considerations: The woodcreek generator will be funded under department 200-75 capital replacement fund approved in the 2018-2019 operations budget total cost of \$ 52,312, the 2 Williamsburg generators will be funded through the Waste Water Impact fee funds total cost of \$ 127,434. Total project cost is \$ 179,746.

Supporting Documents: Quotes are provided for each lift station from the Buy Board Cooperative purchasing program.
